

A Novatech Company

- All RSL doorglass use safety tempered glass.
- Blinds: Always transport in raised position.
- Decorative: Handcrafted, so bubbles & pattern variations are unique art glass and not defects.
- Hurricane Impact & Protector use laminated glass for High Velocity Hurricane Zone (FL #15419), STC, and Security. More thermal performance & test compliance at: www.rslinc.com/technical/energy-efficiency
- Do not over tighten screws (max 18-20 inch/lbs for IM; 10-12 inch/lbs for Vinyl; 8-10 inch/lbs for HI). More installation instructions at: www.rslinc.com/technical/installation-instructions
- Avoid using paint thinners or similar alcohol based chemicals. When painting or staining vinyl frames a dark color, use heat reflective paints by Aqua SurTech(D200). More painting & staining instructions at: www.rslinc.com/technical/painting-and-staining
- Storm doors can cause heat damage; venting recommended.
- 20-Year warranty on frame and glass.
